Gems On Our Doorstep

Hadera Power Station

Tuesday 8 January

Orot Rabin is Israel's largest power plant, situated in Hadera, owned and operated by the **Israel Electric Corporation (IEC)**. Electricity supply and generation are complex processes that combine advanced technology, large installations, tiny components, planning processes and thousands of professional hands who are responsible for the vital task.

The power station is the first site that introduced coal-fired electricity in the early 1980s. **The power station's new visiting center opens in January 2019.** It is a showcase, which displays the first stages of electricity production and allows visitors to learn what has to be done in order for the electricity to reach us.

Price for members: NIS 70

Depart: Kikar 9.00am Young Israel 9.10am,

Return: Approx. 12.30pm

All Tiylim fees include a NIS 20 cancellation fee.

There is an additional fee of NIS 20 for non-members.
