Netanya AACI Lecture on International Law with Prof. Eugene Kontorovich

Video call:

https://plus.google.com/hangouts/_/netanyaaaci.org.il/communitycalend?hceid=Y29tbXVuaXR5Y2

Where: 28 Shmuel Hanatziv, Netanya

Description:

Professor Eugene Kontorovich teaches at Northwestern University School of Law. He specializes in constitutional law, federal courts, and public international law. He is one of the world's pre-eminent experts on universal jurisdiction and maritime piracy, as well as international law and the Israel-Arab conflict. He is recognized as an authority on the legitimacy of Jewish settlements in Judea and Samaria and their legal standing in international law. Professor Kontorovich has advised top officials and government departments in both the US and Israel. He is widely cited and published in the media, such as the New York Times, Wall Street Journal, ANPR, AP, Reuters, Haaretz and more. The subject of the Legality of Settlements in International Law is continually topical and always in the headlines. In light of the American Presidential Election results, the Trump Campaign promises in support of Israel may stir up renewed concern about the legitimacy of the Jewish settlements in the occupied areas of the West Bank and may cause a major impediment to the future of peace efforts between the Israelis and Palestinians. We look forward to hearing Professor Kontorovich's insights. Members pre-paid NIS 60 Members at Door NIS 70 Non-members NIS 80

Netanya AACI Coffee and... In remembrance of Holocaust Memorial Day Screening of film "No Asylum"

Where: Shmuel HaNatziv Street 28, Netanya

Description:

No Asylum: The Untold Chapter of Anne Frank's Story The story that's never been told about Anne Frank reveals new information about her father Otto and his struggle to obtain visas and save his family during the Holocaust. The world turned its back on the Franks who were denied refugee status in several countries including the United States. In No Asylum the Franks family relates their struggle before the attic. Otto Frank's recently discovered letters reveal, for the first time, the family's plight. Otto made desperate attempts to secure American visas for his family but very few Jewish refugees were accepted. His pleas for exit visas were rejected and the world turned its back on him, one country at a time. The Franks, with no asylum and no hope, remained helpless as Hitler and his men destroyed their family one by one. Today, 70 years after her death, Anne Frank is a great icon of tolerance, especially to young people. She transcends cultures and borders. The universal message of never again has great relevance today. No Asylum asks if society will look away or finally take action when atrocities due to prejudice and discrimination occur. We are screening this film the day before Israel's Holocaust Memorial Day. Members pre-paid NIS 20 Members at Door NIS 30 Non-members NIS 40 E: 20/2/17

Video call:

https://plus.google.com/hangouts/_/netanyaAACI.org.il/communitycalend?hceid=Y29tbXVuaXR5Y2

Where: Shmuel HaNatziv Street 28, Netanya

Description:

Commemorating the Babi Yar mass murder of 1941 - a trilogy with history, Jewish symphonic music & film. Far more than 100,000 people, were massacred in a few months by Nazis and Ukrainians in the ravine of Babi Yar, in the first few days most of them were Jews. Last year a Memorial Service was held in Kiev with two compositions by Dr Baruch Berliner, an Israeli-Swiss composer. They combine murder and hope in a unique musical way. After a brief introduction we will screen the film of this Memorial Concert, complemented by photographic insights into contemporary Jewish life of Kiev. Short cinematic transitions show a family on the long death journey to the place of execution. The film closes with a scene of hope: the smile of a little girl. The music: Cain & Abel, the 4th part of the Genesis (Beresheet) symphony, with narrator and orchestra, an emotionally very strong scoring of the first murder in history. Abraham. Oratory for choir, orchestra and narrator: Hope is the musical interpretation of Parshat Lech Lecha, as Abraham Avinu is promised to become a great nation. Baruch Berliner, a mathematician, former senior researcher at Tel Aviv University, author of thousands of poems in several languages, will talk briefly about his music. https://plus.google.com/hangouts/_/netanyaaaci.org.il/communitycalend?hceid=Y29tbXVuaXR5Y2

Where: Shmuel HaNatziv Street 28, Netanya

Description:

Seth Farber is a Modern Orthodox Rabbi and historian. He is a graduate of New York University and was ordained by the Rabbi Isaac Elchanan Theological Seminary of Yeshiva University in 1991, received his Master's in Judaic Studies from Yeshiva University in 1995, and a PhD from the Hebrew University in Jerusalem in 2000. Rabbi Dr. Seth Farber founded ITIM (The Right To Live Jewish) in 2002 to oppose the alienation that many Israelis feel at what are supposed to be the most significant moments of their lives as Jews: birth, marriage, divorce, burial, and conversion. The encounter with the religious establishment at these moments is often accompanied by fear, lack of knowledge, disgust, frustration, and anger. To contribute to positive and significant encounters with Jewish life, ITIM helps people navigate the depths of the religious authorities' bureaucracy in Israel, providing information, mediating, representing them, and working to simplify the process and solve complex problems. Over the years, they have helped tens of thousands of people, who have found a sympathetic ear and an outstretched helping hand. We are delighted to welcome Rabbi Farber to address the issue of conversion. Members pre-paid NIS 40 Members at Door NIS 50 Non-members NIS 60

Fernanda was recruited as a teenager and trained as a professional military spy by a group of Israeli secret agents during the Essek Bish. Fernanda was betrayed and fell in the hands of hostile authorities who tortured her and turned her life into a nightmare. The operation ultimately became known as the Lavon Affair after the Israeli defense minister Pinhas Lavon was forced to resign as a consequence of the incident. Before Lavon's resignation, the incident had been euphemistically referred to in Israel as the "Unfortunate Affair" or "The Bad Business" (Essek Bish). Israel publicly denied any involvement in the incident for 51 years. The surviving agents were officially honored in 2005 by being awarded certificates of appreciation by Israeli President Moshe Katzav. Join us to hear Fernanda's personal experience. In honor of Israel's 69th independence day and following the huge success of our many trips to the Israel Intelligence Centre we have put together a day celebrating Israeli innovation, incorporating a unique opportunity to visit the . Its R&D activities include laser and electrooptics, nuclear medicine, radio pharmaceuticals, non-destructive testing, space components characterization and testing, crystal growth, development of innovative radiation detectors and sophisticated equipment and systems for the automatic detection and identification of contraband explosives and drugs. From there we will take a step back in time and visit the Ayalon Institute, which tells of the fascinating and mysterious stories in the history of the struggle for the establishment of the State of Israel. Beneath the ground, and right under the nose of the British, a factory was created for the production of bullets for the Palmach fighters. The site operated under complete secrecy from 1945 until 1948, during which over four million bullets were produced. At our last stop of the day, exploring Israeli innovation, we will meet John Corrie CFO of FuturaGene technologies. He will tell us about how this Rehovot based company is helping a world challenged by growing population, diminishing resources and climate change. John will take us on tour of the laboratories and give us an inside view of developing technologies addressing critical challenges posed by plant yield enhancement. Netanya AACI Coffee and... "Guns, Traumas and Exceptionalism" with Howard Epstein

Where: Shmuel HaNatziv Street 28, Netanya

Description:

Howard is an author, columnist and political commentator. He is well-read, knowledgeable, articulate, voluble and strongly-opinionated about Jewish and Israeli history and current affairs - and a staunch Zionist. He made Aliyah in September 2005. Howard is not an American and not an academic historian. He is British and a commercial lawyer and this gives him the ability to look at American history from the outside and to study its events and personalities forensically. His first book: Guns, Traumas and Redemption: America in the Twenty-First Century was recently published and he will be joining us to tell us about his book, which will be available for purchase. It is an overview of recent American history which took him to an unexpected conclusion. It is his hope that this book will lead to a good outcome for the American people. 12pm Netanya AACI 4th of July Luncheon with Entertainment

Where: Shmuel HaNatziv Street 28, Netanya

Description:

Netanya AACI is once again planning a 4th of July indoor picnic featuring all-American food and entertainment. We will have hot dogs and hamburgers, potato salad and sauerkraut, with all the fixin's. Maestro and musicologist Harvey Bordowitz will once again take us on a light American musical journey, including familiar favorites and things we didn't know. You definitely don't have to be an American to join in the fun. In fact, last year there was a large turnout of Brits, whose seemed to enjoy celebrating America's independence from Britain as much as the Americans did. In keeping with our organization's basis, we will also be joining our one-time neighbors to the north in celebrating Canada Independence Day, which falls on the 1st of July. For those who are so inclined, BYO Beer. Pre-booking is essential. Price to follow E: 3/4/17

9:50am Netanya AACI Tiyul "Times Gone By"

Where: Tel Aviv

Description:

At the Joseph Bau House on Rothschild Boulevard, Bau's workshop conveys to the visitor his amazing life story. His work covers a wide creative range, including movies, animation, paintings, graphics, literature and research of the Hebrew language - all with a special sense of humor. Rebecca and Joseph Bau were the actual couple whose wedding is shown in the movie Schindler's List. Only after his death was it revealed that he worked for Mossad as a graphic artist, forging documents for Israeli spies, including Eli Cohen. Joseph immigrated to Israel in 1950 with a dream to make animated movies. In his studio, which his daughter turned into a museum, we will see animated movies, the original equipment he built to create them, his paintings and graphic art; all this accompanied by fascinating stories told by his daughters Clila and Hadasa Bau with humor and a smile. From there we shall have a guided tour to explore the history of the development of the State of Israel as a young democracy at The Yitzak Rabin Center. Two parallel stories come together in this unique museum: the history of the State and Israeli society weave together with the connecting thread of Yitzak Rabin's biography. During our visit we will be guided to the newly opened exhibit 50 Years on from the Six Day War. Price for members NIS 190 After 8 June NIS 200 Bring your own lunch to eat at The Rabin Center cafeteria where you can buy a drink. Depart: Young Israel 9.50am, Kikar 10.00am Return: Approx. 6.00pm E: 19/4/17

11am Netanya AACI Tiyul "Israeli Innovation"

Where: Soreq Nuclear Center, Ayalon Institute & Weizman Institute

Description:

Please note our Tiyul on 11 May is fully booked, this is a repeat program with a visit to the Weizman Institute Join us for a day celebrating Israeli innovation, incorporating a unique opportunity to visit the Soreq Nuclear Research Center affiliated to the Israel Atomic Energy Commission. Its R&D activities include laser and electro optics, nuclear medicine, radio pharmaceuticals, non-destructive testing, space components characterization and testing, crystal growth, development of innovative radiation detectors and sophisticated equipment and systems for the automatic detection and identification of contraband explosives and drugs. From there, we will take a step back in time and visit the Ayalon Institute, which tells of the fascinating and mysterious stories in the history of the struggle for the establishment of the State of Israel. Beneath the ground and right under the nose of the British, a factory was created for the production of bullets for the Palmach fighters. The site operated under complete secrecy from 1945 until 1948, during which time over four million bullets were produced. Our last stop will be the Levinson Visitors Center, giving a window into the unique nature of scientific investigation and discovery at the Weizmann Institute and its central role in Israeli science and technology. The Center contains technologically advanced exhibits and a state-of-the-art multi-media presentation about the fascinating world of scientists who uncover the secrets of nature and decipher the codes of the universe.
